Public Comment Period (*limit 5 minutes per individual*)

Mr. Robert Brown spoke about the General Taylor Freeway alternative to some portions of the current plan.

Ms. Donna Sayegh spoke about liberty, the historical creation of municipal councils and the negative impacts of those councils, and the unnecessary proliferation of redundant agencies.

Ms. Dianna Howard suggested the creation of the HRTAC Citizens Advisory Committee via Bylaws changes, and requested that the Chair of the HRTAC Citizens Advisory Committee be welcomed to the monthly meetings and be given a vote. She closed by suggesting that Townebank should not be chosen as the bank for HRTAC.

Ms. Teresa Langille spoke next and suggested additional bylaws changes associated with the method of choosing the chair and vice chair based on population. She also spoke about being overly taxed.

Ms. Daniella Cousceau spoke about clarifying the specifics of what constitutes a quorum. She also spoke about a change to the bylaws to incorporate the creation of a Secretary position.

Mr. Reid Greenmun spoke about the inconvenient time of the scheduled meetings. He also spoke about bylaws changes to eliminate voice voting and look to adopt a weighted-voting option coupled with better regional decision making efforts.

Ms. Waverly Woods recommended another bylaws change that would require HRTAC to give residents the right to speak for up to 5 minutes on any agenda item, resolution, or motion.

Mr. Tom Thornton made another bylaws change recommendation associated with the selection of a HRTAC Executive Director, term limits, and removal of the director prior to term limit conclusion.

Mr. Mark Geduldig-Yatrofsky discussed alternative transportation methods and suggested that business growth requires multi-modal solutions. He reiterated that you cannot pave your way out of congestion.

Minutes of the October 16, 2014 HRTAC Monthly Meeting

Mayor William Sessoms Moved to approve the October 16, 2014 Summary Minutes; seconded by Mayor Paul Fraim. The Motion Carried.

HRTAC Finance Committee Report by Vice Chairman Eugene Hunt

Mr. Hunt began by discussing the most recent Finance Committee meeting and the public comments collected at that time. He then proceeded with a summary of the budget, noting the changes made since the last budget was presented; the resulting 2015 budget was modified by reducing the number of staff for HRTAC.

He then recommended that the Finance Committee and TAC come together again to put together modeling scenarios.

Delegate Jones expressed some confusion as to the segmentation of the projects. Charlie Kilpatrick explained the intricacies that necessitated segmentation and the associated procurement process.

Delegate Joannou expressed confusion on the I-64 widening projects, route 199, and the continued use of HRTPO staff.

Mr. Hunt explained and Mr. Kilpatrick expanded on the explanations. Finally, Delegate Jones reiterated that using the HRTPO staff solution was a bridge until HRTAC is up and running.

Mr. Price asked about a potential delay to segment 2 of the I-64 widening project, and what could be done to limit the delays for that project. Mr. Kilpatrick explained that the plan was to send segment 2 for procurement in the spring of 2015. He also remarked that the contracting community is not interested in bidding on projects that aren't funded.

Next the discussion focused on funding, cashflow, bonding, and projections. Delegate Jones and Eugene Hunt gave additional information to the discussion.

Delegate Jones gave a concise review in response to additional confusion stated by Delegate Joannou of the proposed budget. He stated the different projects with the amount of money associated with the various projects. He stated that the board should move forward with the approval process so as not to interfere with the process that VDOT must observe.

Mr. Kilpatrick provided more information and insight into the process and the plan. He remarked that the models originally used were cash and carry models. He said that bonding could allow for acceleration of projects and/or addition of new projects.

Mr. George Wallace asked if the Finance Committee was planning to use the pay-as-you-go method, to which Mr. Hunt replied that the committee has concluded that the ability to bond will be necessary to complete the projects faster.

The discussion continued and it was succinctly put that the first segment of the I-64 widening project could be paid with cash if the bonding ability isn't in place in time.

There was significant confusion stated by many parties as to the nature of the current motion on the floor which had been changed, modified, changed again, and so on.

There was a concern that the Board was rushing to a decision, to which Delegate Jones remarked that they had been deliberating this for months, and he did not think that was in any way rushing the decision.

Delegate Joannou had a question about tolls and whether they were being voted on at this time, to which Mr. Hunt responded that they were not voting on tolls at this time.

Mr. Eugene Hunt Moved to approve 2015 Finance Plan with the costs of all of the projects and the suggested staffing change; seconded by Mayor Paul Fraim. The Motion Carried.

Next, Chair Alan Krasnoff inquired as to the status of the Attorney General's Opinion regarding Conflicts of Interest for Board Members with banking ties. Peter Huber and Brett Spain commented and stated that the Attorney General will only issue opinions on individuals. It was suggested that any Board Member with a concern should go through the process of requesting and getting an Opinion from the Attorney General.

Unfinished/New Business

There was not any new or unfinished business discussed.

Next Meeting

Mayor Clyde Haulman Moved to change the time of the next monthly meeting scheduled for December 18, 2014 to 10:00AM; seconded by Mayor Paul Fraim. The Motion Carried.

The Next HRTAC Monthly Committee meeting is scheduled for December 18, 2014 at 10:00 AM.

Adjournment

With no further business to come before the Hampton Roads Transportation Accountability Commission (HRTAC), the meeting adjourned at 2:31 PM

Executive Summary

Item 1 of Chapter 2 of the 2014 Special Session I included the requirement that the Joint Commission on Transportation Accountability (JCTA) shall regularly review, and provide oversight of the usage of funding generated pursuant to the provisions of HB 2313 (2013 Session of the General Assembly). To meet this requirement, the Hampton Roads Transportation Accountability Commission (HRTAC), the Hampton Roads Transportation Planning Organization (HRTPO), and the Virginia Department of Transportation (VDOT) have prepared this report to inform the JCTA on the uses of the Hampton Roads Transportation Fund (HRTF) for Fiscal Year 2014.

Background

The Hampton Roads Transportation Planning Organization (HRTPO) is the Metropolitan Planning Organization (MPO), a federally mandated policy body for transportation planning, for the Hampton Roads area. It is responsible for transportation planning and programming for the Hampton Roads Metropolitan Planning Area (MPA).

On April 3, 2013, the Governor's substitute for House Bill 2313 (HB 2313) was adopted by the Virginia General Assembly. Based on criteria set forth in HB 2313, several new taxes dedicated to transportation were imposed in Planning District 23, (located in Hampton Roads), thereby providing permanent, annual sources of revenue dedicated to transportation projects to reduce congestion in the region. These new revenue sources became effective on July 1, 2013 (FY 2014), with the new taxes being imposed in the localities comprising Planning District 23: the Counties of Isle of Wight, James City, Southampton, and York and the Cities of Chesapeake, Franklin, Hampton, Newport News, Norfolk, Poquoson, Portsmouth, Suffolk, Virginia Beach, and Williamsburg. The legislation established the Hampton Roads Transportation Fund (HRTF) which is funded with the new taxes imposed in Planning District 23. Pursuant to HB 2313, HRTPO was given authority over use of funds in the HRTF.

During the 2014 General Assembly Session, the Hampton Roads Transportation Accountability Commission (HRTAC) was created to administer the funding in the HRTF. House Bill 1253 and Senate Bill 513, (Chapters 678 and 545 respectively), created HRTAC as a political subdivision of the Commonwealth to procure, finance, build, and operate critical projects in the region. The Commission has 23 Members, consisting of the chief elected officers of the governing bodies of the 14 localities in Planning District 23, two members of the Virginia Senate, three members of the House of Delegates, and four nonvoting ex officio members (Commissioner of Highways, Director of Rail and Public Transportation, Executive Director of the Virginia Port Authority, and a member of the Commonwealth Transportation Board). HRTAC was authorized to issue bonds and use the revenue generated by HB2313 in Planning District 23 to, among other things, support the debt service. HRTAC would not replace the planning functions that are provided by the HRTPO. The new commission will utilize the HRTPO prioritized projects as its program of projects. The authority of the funding for the HRTF transitioned on July 1, 2014 to the HRTAC from the HRTPO.

Revenue Collections

Sources

Retail Sales and Use Tax

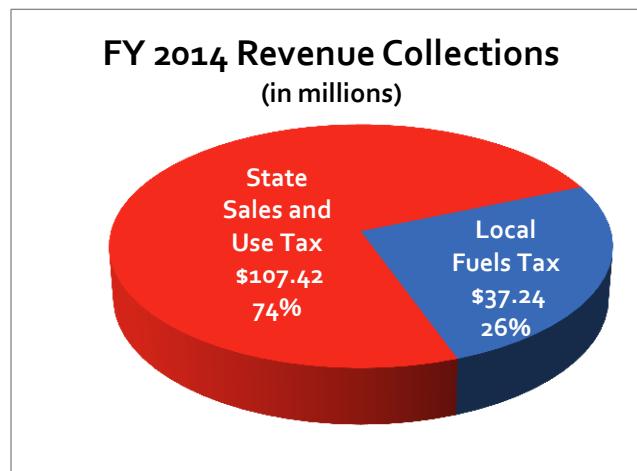

A new additional state Retail Sales and Use Tax was imposed in Planning District 23 at the rate of 0.7 percent and dedicated to the HRTF. Accordingly, the total rate of the state and local Retail Sales and Use Tax became 6 percent in localities that fall within the District (4.3 percent state, 0.7 percent regional, and 1 percent local).

Local Fuels Tax

In Planning District 23, an additional fuels tax was added at the wholesale level of 2.1 percent. These funds were also dedicated to the HRTF.

Total Collections

Revenue collected and interest earned in

FY 2014 totaled \$145.0 million.

Allocations

The HRTPO approved an allocation of \$44 million from the HRTF for the I-64 Capacity Improvements, Segment I in January 2014. Through FY 2014, this was the only project allocation made by the HRTPO.
